## Top-Kenntnisse

AI Architecture

Deep Learning

Kubernetes

## Languages

German (Native or Bilingual)

English (Full Professional)

French (Professional Working)

## Certifications

TOGAF®-Zertifizierung

# Sven Schilke

PhD, Data Science Architect at VISECA  
Zürich, Zürich, Schweiz

## Berufserfahrung

Viseca

Data Science Architect

Oktober 2023 - Present (2 Jahre 9 Monate)

Zürich, Schweiz

ABB

Data Science Consultant

Juni 2020 - August 2023 (3 Jahre 3 Monate)

Zürich, Schweiz

Lead advanced analytics projects in ABB's turbocharging division, driving end-to-end

initiatives from proposal to implementation.

Work spans manufacturing to finance, using techniques from linear regression to

deep learning.

Responsibilities include building data pipelines, developing models, and deploying ML solutions.

Kantar

Lead Data Scientist

Juni 2018 - April 2020 (1 Jahr 11 Monate)

London, United Kingdom

Supervised a team and delivered insights for high-profile clients like Facebook, Google, Nestlé, and Coca-Cola.

Applied statistical learning techniques (regression, classification, clustering, forecasting) to in-house consumer data, fostering client growth.

Deltares

Research Scientist

Juni 2017 - Mai 2018 (1 Jahr)

Utrecht, Niederlande

Led research on fiber optic and seismic methods, writing proposals for innovative

projects.

Developed signal processing algorithms to apply fiber optics in new industries beyond oil and gas.

## Schlumberger

4 Jahre 4 Monate

### PhD Research Associate

September 2013 - Juni 2017 (3 Jahre 10 Monate)

Cambridge, Großbritannien

Numerical simulation of seismic data.

Development of signal processing algorithms to process optical and seismic data.

Automatizing the monitoring of DAS systems to acquire high signal-to-noise ratios.

### Master Thesis Project

März 2013 - August 2013 (6 Monate)

Cambridge, Großbritannien

Development of signal processing algorithms to increase signal-to-noise ratios

Development of inversion algorithms to localize the hypocentre of seismic induced earthquakes.

---

## Ausbildung

### MINES ParisTech

Doctor of Philosophy - PhD, Scientific Computing · (2013 - 2017)

### ETH Zürich

Master of Science - MS, Applied Geophysics · (2011 - 2013)

### Technische Universiteit Delft

Master of Science - MS, Applied Geophysics · (2011 - 2013)

### Rheinisch-Westfälische Technische Hochschule Aachen

Bachelor of Science - BS, Geosciences · (2008 - 2011)
